We hereby submit specifications and estimates for: Once six inches of snow have covered the hydrants we will be activated to remove the snow from the hydrants at \$16.⁰⁰ per location. A clearing of 3 1/2 feet wide by 2 1/2 feet wide will be made around each hydrant/location, for all locations (hydrants & community buildings/well houses). This will be the normal routine unless one storm accumulates an extra 6 inches. A \$1.⁰⁰ fee will be added to every additional 6 inches. For example, if we get 10 inches of snow the price is still \$16.⁰⁰ per location, if we get 12 inches of snow the price becomes \$17.⁰⁰ per location. If we get 18 inches of snow the price becomes \$18.⁰⁰ per location etc. The additional \$1.⁰⁰ fee will only be added once measurements hit a complete 6 inches. Activation of snow removal will start after measurement of 6 inches of snow, this will be recorded on a snow log with dates & measurements of each storm, we will also inform whoever is in charge that snow removal has been activated.
