Treasurer's Report:

There was discussion about the budgeted amount for repairs and maintenance versus capital improvements, with the treasurer reminding the board they have already spend most of the budgeted funds. There is money within the 735 capital improvement reserves – however it requires a board resolution in order to pay invoices or time cards through that fund. Since there will likely be more invoices to be paid for capital improvements and since it is easier to pay invoices in a timely manner through the 740 general fund. It was proposed that the capital improvement monies be transferred from 730 USDA capital improvement reserve to 740 line 8100 building and improvements. It was further discussed that should any funds unspent at the end of this fiscal year will be transferred back in to 735 cap improve reserve. It was moved by D. Doty to accept Resolution 2016-130-A increasing line item 8100 Building and improvements within 740/2020 and transferring funds from 735 USDA capital improvements. The treasurer is authorized to submit the required paperwork to the county in order to complete the following actions.

- That the 2016-2017 fiscal year budget for 740/2020 line item 8100 (Building and Improvement) and shall be increased to \$23,000.
- Furthermore, this line item will be funded by a transfer from the 2016-2017 fiscal year budget for 735/USDA Capital Improvement Reserve of \$11,000.00. This transfer will leave a balance of \$1000.00 in 735/USDA (Capital Improvement Reserve) line item.

Additionally, it is understood that any unspent monies from the \$11,000 USDA Capital Improvement Reserve transfer at the end of 2016-2017 fiscal year, will be transferred back into 735.

The motion was seconded and passed by the following roll call vote:

D. Doty – aye

C. Marchaunt – aye

M. Moroney – aye

W. Benton - aye

Absent: P. Cohen

It was moved, seconded and passed to accept the June and July treasurer's reports as presented.
