We hereby submit specifications and estimates for: I, Toro, propose to PCSD that I be a part of two managements under one system. I, Toro Lane, & my work partner Tim Harness (if Tim agrees) will alternate snow removal duties & water maintenance & repair duties during the winter months. Also during the winter months we request two part time employees that will help us to perform & continue water repairs. This will help us to repair leaks & continue snow removal on roads simultaneously. When there are no water repairs needed, Tim & I would both be on snow removal duties with no extra help needed. In the summertimes, Tim & I would together service & repair the water needs of the community. If one of us is absent then we would have the winter part-time employees to call on if an extra hand is needed. If I have the honor of becoming management, I, Toro will continue to use my equipment: skidsteer, excavator & dump trucks for the usage of digging, hauling/delivering pipes, asphalt & DG and will lower my rate from 110 per equipment per hour to 55 per equipment per hour. I will also train the other manager as well as the part-time employees to operate my equipment for PCSD to have anytime emergency access. Tim & I would like to discuss with the board this beginning part of the proposal & discuss whether we would prefer hourly wages or a salary at the next meeting.

We propose hereby to furnish material and labor - complete in accordance with the above specifications for the sum of:  
 \$ to be decide / conversation to start next meeting Dollars

Any alteration or deviation from above specifications involving extra costs will be executed only upon written order, and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents, or delays beyond our control.
